

## **Friends**

Friends are humble  
Friends are kind  
Friends you keep top of mind.

When friends are together  
They make each other feel good  
It is a bond that is understood.

There is something missing  
When friends are apart  
It's like you feel not as smart.

I have a friend named Larry  
We like to work in the dome  
He makes me feel right at home.

I have another friend  
His name is Al  
He is often more like a Pal.

I have a friend who is a poet  
He goes by the name of Scott  
He inspires me to write a lot.

Thank you for being my friend.

Gabriel Catherman
